

Low-back semi-vertical refrigerated island, operating at positive temperature, suitable for the display and self-service sale of pre-packaged products such as meat, cured meats, dairy products, fruit & vegetables. Meltemi represents the latest DRR evolution of medium-temperature islands, featuring a clean, essential design that ensures optimal visibility of the displayed products. Its compact and modern structure is designed to enhance every item, optimizing space while making the display more attractive and functional. Thanks to its wide range of configuration options, Meltemi adapts perfectly to different store layout and style requirements, offering versatile solutions for any type of retail environment. The Meltemi range also helps reducing energy consumption, while lowering installation and operating costs, thanks to the use of a single evaporator and a single controller. Meltemi is the ideal choice for those seeking a perfect balance between performance and cost efficiency. Meltemi is available in the following versions: MELTEMI DOORS and MELTEMI DOORS LB.

CLIMATIC CLASS: 3M1 – 3M2 – 3H

ENERGY LABEL

Energy class referred to a specific cabinet configuration, which may significantly change for a different one.
