

Mistral Slalom

COMING SOON

Mistral Slalom is DRR’s new patented solution, designed to turn architectural barriers into valuable display space. Its slalom-shaped structure allows to rotate around columns and embrace structural barriers, maximizing usable space. This product is part of Mistral range, the next generation of DRR vertical cabinets. Designed for low energy consumption and high efficiency, it simplifies multiplexing operations while maximizing performance. Mistral combines elegance and simplicity with outstanding product visibility, adapting seamlessly to any display need. Mistral Slalom is offered in two versions, unlocking endless configuration options:

Mistral Slalom B

Featuring an adaptive back, specifically designed to allow the wall configuration to align with architectural requirements while maintaining the clean, straight front line of the cabinets.

Mistral Slalom F

Featuring an adaptive front and a straight back, specifically designed to allow the wall configuration to integrate with architectural requirements in front of the cabinets.

CLIMATIC CLASS: 3M2 - 3H

ENERGY LABEL

Model not subject to Energy Labelling (Ecodesign 2019/2024 and Energy Labelling 2019/2018).
